

Science Course Evaluation

1. For each of the following please place an x in the most appropriate box:

	Strongly agree	Agree	Disagree	Strongly disagree
The course content and learning objectives were explained well.				
The organization and presentation of the course content is understandable.				
The instructor varies the style of teaching to reach all students.				
I receive feedback on my progress in the course in a timely manner.				
The feedback is helpful to my science learning.				
The interaction with other students facilitates my learning.				
The course content is at the appropriate level given my background.				
The course content will be useful in my own teaching.				

2. What part(s) of the course have you learned the most from so far?

3. What part(s) of the course has contributed the least to your learning so far?

4. What one thing do you wish the instructor would do more of or less of to facilitate your learning science?
